ARRIVAL OF THE "PACIFIC."

Late and Interesting News.

GENERAL SUMMARY.

The steamer Pacific arrived about 5 o'clock on Saturday morning from San Francisco, bringing California papers to the 7th instant—one week later than those by the Oregon.

California.

Mr. Ryan, living on the Mission Road, San Francisco, is in jail on a charge of beating his wife to death.

Judge Terry, by a packed jury in Marin County, has been acquitted of killing David C. Broderick.

Wm. Farley, injured some time since by falling through a skylight in San Francisco, is dead.

Capt. Dall has been shot and severely wounded, in an affray at Carson Valley.

In the Faralone egg case the Italians were found guilty of a trespass.

L. Davidson, dry goods dealer at Mokelumne Hill, failed for \$4,500; Jacob Levinson, general merchandise dealer at Tehama, failed for \$12,000.

The wife of Alex. Hayden, of Sacramento, was burned to death on the 4th instant, by the explosion of an alcohol lamp.

The Marysville Democrat learns that a man named Denton, was chopping wood lately, near Timbuctoo, when he found in the butt of a hollow tree, a bag of gold dust worth \$7,000. It had been there evidently, for a long time, and the owner is probably dead—otherwise he would have returned for it.

Dumphries, the Irish comedian, is dead.

Joseph A. Post, formerly one of the first merchants in San Francisco, committed suicide by cutting his throat on the 21st instant. He had made several attempts at self-destruction before.

A lad 16 years of age, named Wm. Gawley, was accidentally shot and killed by Andrew T. Seymour on the morning of the 4th.

The Fourth of July was celebrated with much spirit in San Francisco.

The Market street Railroad was opened on the 4th, and cars passed over the track.

The States.

Startling developments will shortly be made, it is said, by the Covode corruption committee.

The Seceders' Convention was in session at Richmond. Nothing had been done at last account.

The bill appropriating \$3,400,000 for the Oregon and Washington Territory war debt was defeated in the House.

Secretary Floyd has commanded Gen. Harney to Washington, with a view of arranging a campaign against the Shoshones and other Indians, to be planned on a large scale, as government is satisfied we are to have a war at an expense of many millions.

Daniel Clark was re-elected to the U. S. Senate from New Hampshire, on the 13th. He received 183 votes to J. S. Wells' 108.

Law and Connover have applied for an injunction to restrain the U. S. Marshal from levying on their property or sureties for Fowler the defaulter, to the amount of \$90,000, at the time of the execution of the bond.

On Friday night a tenement house in New York was burned; one man perished and two women were injured by jumping from the windows.

The fire-works manufactory of Hatfield and Son, at Williamsburg, exploded lately, killing Charles Statfield and Jacob Gresse, and wounding three others.

The Japanese arrived at Philadelphia on the evening of the 9th. Kept quiet on Sunday and Monday. Some rowdies applied the term "nigger" to them, which gave much offense. They referred the matter to the Commissioner, saying they feared they were thought by Americans to be very ridiculous.

The Massachusetts Legislature, on the 13th ult., adopted a resolution, by a vote of 86 to 44, endorsing the recent speech of Sumner.

Advices from Buenos Ayres states that a party of eight English missionaries were beaten to death by Patagonians, on an island.

Latest accounts from Mexico represent the Liberal party as dying out.

A dispatch from St. Louis, June 16th, to the San Francisco Alta, contains the following intelligence:

The New York Herald has a special dispatch

from Naples to the 1st June. Garibaldi had agreed to an armistice to terminate on the 2d. The population shouting "Garibaldi, Victor Emanuel, Sicily."

The Juarez Minister of the Treasury has resigned. It is believed that the Liberal Government will be dissolved by the non-ratification of the treaty.

The Japanese arrived in New York on the 16th June. Three hundred thousand spectators.

The taxes in New York, this year, will be enormous—about \$11,000,000, or nearly two cents on the dollar at a high valuation of property in the upper part of the city. The police cost upward of \$1,400,000; the almshouse department, \$65,000; fire department, \$100,000; election expenses, \$125,000.

Europe.

Garibaldi has captured Palermo. His forces are increasing in numbers, and he appears to have been successful in his most important movements.

A treaty between France and China has been reported, the former receiving 2,000,000 francs indemnity for outrages committed by the latter.

A correspondent of the London News says: France and Russia have agreed to divide Turkey. England was to receive a share, but if she would not agree, the others would proceed and take the whole themselves.

The English Admiral offered protection to American citizens at Palermo.

A rejection of the English ultimatum was announced in Parliament by Lord John Russell. He stated that Austria, Prussia and England dissented with Russia relative to Turkish affairs. He proposed that Turkey herself should institute inquiry relative to Christians, which proposition the Sultan was acting upon.

Uncle Jerome Bonaparte is dangerously sick. The Emperor and Empress went to Lyons to meet the Dowager Empress of Russia.

Belle were formally presented at the Alhambra, London, to Heenan and Sayers on the 30th. Downing made presentation to Heenan, with a complimentary speech, and Wilkes to Sayers. Each declared all animosity buried.

The Great Eastern leaves for New York on the 9th June.

Australia.

Riots had taken place at Maitland, N. S. W., in consequence of a clergyman, named McIntyre, using expressions, in a public lecture, abusive of the Roman Catholic Church. He had talked, for instance, of "the heathenism of Popery." His own church was attacked by the Catholics, and the lecturer and his brother were somewhat roughly handled by the excited assailants.

The Snowy River Diggings are a success. Nearly all the miners are doing well.

The population of the colony of Victoria is 529,933—335,558 of which are males, and 194,375 are females.

On the 10th April a steamer, laden with troops, left Sydney for New Zealand, to take part in trials in progress there between the whites and natives.

Some of the Melbourne papers demand a protective tariff. They say free trade will not do for them, however good it may be for England.

Japan and China.

It is uncertain yet whether the reigning prince of Japan is killed or not. Great insecurity is felt by foreigners, and free trade is at a discount.

The preparations by the Allies for the war in China, continue.

By the middle of May, the whole of the expeditionary force was expected to have sailed from Hongkong for the North. A proportion had already been removed to Chusan. That island, the largest and healthiest in the Chusan Archipelago, had been quietly occupied by the allies. The Chinese inhabitants received their invaders with pleasure, as they anticipated only local benefit from their expenditures. The most favorable part of the island has been yielded up to the French by the British.

DEATH FROM INTOXICATION.—A teamster named James Morrison was recently found near Rough and Ready, in a dying state. The Grass Valley National says:—

"A person on approaching him noticed that he was just gasping for breath, and was dying in a state of most beastly intoxication, no less than twelve empty bottles of Schnaps lying beside him, the contents of which he had undoubtedly drunk. He had taken them from a box which constituted a part of his load which he was hauling to Columbia Hill. His stock was found scattered about in the neighborhood. His team and himself had been noticed in that locality for several days previous."

EXPLOSION AT THE SEHOME MINES.—On Thursday last, while Mr. Jos. Moody, the Superintendent, and Mr. John Tonkin, the chief engineer of the Sehome coal mines, at Bellingham bay, were down in the mine to examine a "fault" in the coal seam, a small collection of coal gas or fire damp, by some accident came in contact with the lamp and exploded, scorching the faces of both gentlemen, and blistering Mr. Tonkin's hands badly. No damage was done, nor were either gentlemen sufficiently injured to prevent them attending to their daily duties.

—P. T. Register.

SAD ACCIDENT.—On Wednesday last, while Mr. Alexander Miller was engaged in cutting trees on Hood's Canal, some twenty miles above Seaback mills, a tree into which he was cutting, suddenly fell, striking and breaking his leg. He arrived here on the sloop Wild Irish Girl, and his broken limb was set by Dr. P. M. O'Brien.—P. T. North-West.

The Japanese arrived at Philadelphia on the evening of the 9th. Kept quiet on Sunday and Monday. Some rowdies applied the term "nigger" to them, which gave much offense. They referred the matter to the Commissioner, saying they feared they were thought by Americans to be very ridiculous.

Letter from Quesnelle.

CARIBOU LAKE, June 28th, 1860.

MINERS NEVER SATISFIED.

EDITOR BRITISH COLONIST:—To any one at all conversant with life in the diggings, it would appear that the miner is never to profit by past experience, in order to guide him in future operations. He is just as ready to pack up his blankets, together with a pick, pan and shovel, and a week's provisions, and start out on a tour of prospecting, or to go in pursuit of some fabulous yarn that has been privately circulated with regard to the golden fleece existing in some secret glen, as he was in the days of Gold Lake, Kerm River, Pike's Peak, and lastly that of the Argonauts to Queen Charlotte's Island.

THE EFFECT OF BIG STORIES.

Although he may have permanent diggings, and be realizing good wages, yet his mind is always on the *qui vive* to learn if any one is out prospecting, and if rich discoveries are not being made at some distant point, difficult of access and no trail leading thereto. If answered in the affirmative, and he finds that Dancing Bill, or the Mountaineer, or men with such like *aliases*, have just returned from a two weeks' cruise in the mountains, and are going out again in a few days, with provisions to last them some length of time, he commences to nibble at the bait thus laid before him, and without further reflection rushes to his cabin, proposes to sell his claim, or rather give it away for a small consideration, and start immediately for the supposed El Dorado.

GENERALLY HUMBUGGED.

As soon as he arrives at the goal of his golden expectations, he either finds it a humbug, or that the precious metal is deposited in no greater quantities than where he had left; that provision is both dear and scarce; that greater obstacles are in his way towards getting a pile, than he had before encountered; a feeling of disappointment surrounds him—he has been duped, and thinks of nothing but to return again, and sadder, but not, on the whole, a wiser man.

RUSHES IN ALL DIRECTIONS.

Such is the state of affairs at the point I am now writing from at the present time. Some are rushing to Salmon River and the streams emptying into Fraser River above Fort George; others to Swift Creek and streams below Fort George. A great excitement has been created lately with regard to the richness of this locality, termed the Caribou Country, which is situated above the lakes forming the North Branch of the Quesnelle, of which there is little knowledge yet; and thus the miners go floating about, so that the season, from present appearances, is likely to be trifled away like many others, resulting in injury to the mines at present, and no benefit to the country hereafter.

WHY DON'T THEY SETTLE?

If they would only be satisfied to locate at some favorable spot—say at the Forks of the Quesnelle, where a different quality of gold has been found, and differently deposited than in any other portion of the country—then no doubt but rich placers would be discovered. The gold is of the coarse order, and is found in paying quantities in the beds of streams, on the bars, and in the gulches; and why not on the flats so numerous in this vicinity, if sought after, where they would have permanent diggings and be sure of realizing enough to start them in some other business, by which they could make a comfortable living, and say—

"IN SWEET CONTENT MY DAYS ARE SPENT, THEN WHEREFORE LEAVE MY HOME."

Instead of which they continue rushing around in quest of something better, until their constitutions are broken down, when they will be compelled to acknowledge that—

"EVEN GOLD ITSELF CAN COME A DAY TOO LATE."

A RAIN SHOW.

In consequence of the water being high, there is very little doing, and the miners generally are somewhat discouraged. They are rushing about from place to place, and have found nothing flattening yet. If I remain much longer I will write you again; I am yet undecided what I shall do.

YOURS, etc. JUVERNA.

The Recent Gold Discoveries.

The discoveries recently made in the Similkameen and Okanagan valleys by a party of hardy prospectors, lead us to hope that a new and more extensive gold country than has yet been opened in British Columbia, is about being developed. Our correspondents on Rock and Kettle Creeks are reliable men and practical miners, and certainly would not have given glowing accounts of the new diggings, had not the statements been the result of a thorough investigation.

The diggings on Rock and Kettle Creeks (which streams are supposed to be tributaries of the Okanagan River) are about seventy miles above the Boundary line, and are indisputably in British territory. Their distance from Fort Hope by the present trail is about 175 or 180 miles. A portion of the road runs through a rough, mountainous country, and the old Brigade trail is followed to Camp des Femmes, from whence a fine trail, over a comparatively level country, leads the traveler to the new mines. At last accounts, very few miners were engaged on the creeks named, but quite a number were on their way thither from Similkameen and Fort Hope.

The Indians are spoken of as a hardy race, large and strong, disposed to be friendly towards the whites, and have made considerable progress towards civilization. They have their farms, horses and cattle, and seem to be much more industrious than the redskins of Fraser River. Our correspondents seem to think, consequently, that no interference with miners need be looked for from that quarter; a very comforting reflection to an immigrant in a new country.

The greatest drawback, at present, seems to be the scarcity of supplies; which difficulty, however, we are glad to learn, will be, in a measure, overcome by the merchants of Fort Hope, who are preparing to pack to the new placers a full supply of everything needful. This difficulty once overcome, (and it has ever been a serious detriment to the successful working of the diggings in various portions of British Columbia,) the miners will then have an opportunity of thoroughly testing the mines. The richness of the diggings having been satisfactorily established, it will then be the duty of the government of our sister colony to set about in earnest the formation of good and lasting mule-trails. The expense, compared with the sum lavished upon the Harrison-Lillooet trail, will be trifling, and doubtless quite as beneficial in its effects to the general prosperity of the country.

Nearly all the supplies taken into the Rock Creek country thus far, have come from the Dalles, via the Similkameen, and by that route they will continue to come until a good route is open from Fort Hope. When that is done, a collector should be immediately dispatched to the Line, and instructed to collect the ten per cent, tonnage dues, etc., in order that our traders may be enabled to compete with the Oregonians. But until supplies can be regularly sent from Fort Hope, or some other point on the Fraser, the cheaper provisions and mining tools can be obtained at the mines, the better opportunity there is for a speedy development of the mineral resources of the new region.

THE YALE STEAMBOAT.—Mr. Wm. Kelly, one of the directors of the Yale Steam Navigation Company, arrived in town on Saturday last, and will receive tenders for building the hull of the contemplated steamboat, at the Hotel de France, between the hours of 11 A. M. and 5 P. M., each day, until Monday next. The machinery, we understand, will be ordered from San Francisco. The Yale folks are displaying in this matter an energy worthy of success.

STAMPEDE.—Early yesterday morning, about 30 sailors and marines belonging to H. M. ships at Esquimalt, who had been out on leave of absence, took a plunger and two Whitehall boats, and it is supposed left for the American side. The gun-boat Forwood was ordered to start in pursuit of them, but owing to the fact of her having had to wait to coal-up, the deserters had time, it is thought, to make the other side, and thus escape arrest.

SCHOOL FOR THE INDIANS.—A school for the Indians is about to be erected on the Indian Reserve, opposite town. Tenders will be received until Thursday next, at the office of Judge Pemberton, Police Barracks. We have no doubt but this will prove a most successful institution, under proper management.

FATALLY STABBED.—Yesterday afternoon, about two o'clock, a young colored man, named Thomas Brown, was stabbed in three places, by a Chimshean Indian while in the latter's lodge, at the encampment of the Northern Indians. It appears that Brown, with three friends, was walking out in the vicinity of the encampment, and, as he says, stepped into one of the Chimshean huts to buy a feather pillow, and while bargaining with a clootchman, was suddenly stabbed twice in the right side and once in the right arm with a large knife, by one of the Indians, who immediately after committing the deed, fled for the woods. Brown was carried to the Royal Hospital by his friends, and information having been brought to the barracks, a posse of policemen started out to arrest the fugitive. The Rev. Mr. Duncan accompanied the policemen to the Chimshean lodges, and after explaining to them the enormity of the crime which had been committed, in conclusion requested their assistance in capturing the assassin, which was most cheerfully rendered; the whole tribe turned out, and in less than ten minutes caught the villain and delivered him over to the police, denouncing him in the severest terms for the foul act he had committed. The Chimshean was lodged in jail. Brown's injuries are supposed to be of a fatal character, the knife having passed through his lungs, and probably the kidneys. The injured man is about 21 years of age, a native of Kingston, Jamaica, and has been employed as night waiter at Ringo's Restaurant, on Yates street, for a long time. He is said to be very quiet and inoffensive, and gave no provocation to the Indian. Later in the afternoon another Chimshean was arrested on suspicion of being concerned in the stabbing.

SAID IT WAS ALL FUN.—A Tongass Indian on Sunday afternoon accosted a man named John Garretson, on Humboldt street, with the demand: "Patlatch quarter!" Garretson replied that he had "halu chickamun;" when the Tongass presented a musket at his breast, and threatened to shoot. Garretson grasped the musket and took it from the Indian, and during the scuffle dropped his knife, which the latter seized and threatened to ventilate the white man's bowels with it. Garretson escaped, however, with a whole skin, and sent Sergt. Weine after the belligerent Siwash. Yesterday morning the Tongass stated to the Police Judge that he was only in fun—that he wouldn't injure Garretson for the world, etc., etc., etc., etc., etc., etc., etc., etc., etc., muscle in the chain-gang for the space of ten days, in default of the payment of 40s.

A VERY NARROW ESCAPE.—On Saturday afternoon last, a large log, weighing about 100 pounds, was sent spinning through the air from a blast fired by Mr. Yates' workmen, excavating on Wharf street, opposite the COLONIST office. The log went over the houses on Yates street, and came down with a crash through the roof of the Miner's Restaurant kitchen, on Waddington alley, and rolled at the feet of the astonished inmates. These heavy charges are very reprehensible, and may yet lead to the injury of some person.

ARRIVAL FROM THE RIVER.—The steamer Wilson G. Hunt arrived from Fraser River, on Saturday evening. She brought no news of importance. The amount of dust on board was about \$40,000—of which, Jeffray's Express had \$9,000; Ballou's Express 10,000; and in private hands \$21,000. A letter from our correspondent "Juverna," at the Quesnelle diggings, will be found on our first page.

THE FOUR MULES.—Our informant was in error on Saturday, in stating that \$175 had been offered the day previous for each of the four mules sold at auction by P. M. Backus for \$113 50 each. Our information was derived from the agent of the parties who bought the animals, and was incorrect, as no offer had been made for them previous to the auction.

GENERAL HARNEY.—Among the passengers on the Pacific for San Francisco, on Saturday, was Gen. Harney, of the U. S. Army. The General has been ordered home for the purpose of arranging a plan of campaign against the Indians on the route between California and the Rocky Mountains.

THE ECLIPSE To-MORROW.—To-morrow morning the sun will rise eclipsed, and if unobscured by clouds, will be a spectacle such as the youngest living may never have an opportunity of gazing upon again. Early rising must be the order of the day.

SHIPMENT OF GOLD DUST.—Wells, Fargo and Co., have shipped, June 29th, per steamer Pacific, \$19,316; July 9th, per Oregon, \$24,685; July 14th, per Pacific, \$31,826. Total, \$75,827. The total shipment of gold dust during the month of June was \$124,610.

THE MISSING WITNESS.—Darch, who accused policeman Jones of having robbed him of \$153, has not yet been found. By some he is supposed to have committed suicide; but the most plausible view taken is, that he has been enticed away by some of Jones' friends, and is at present at one of the towns on the other side. Jones' case will come up before the Court of Assizes in a few days, when, if Darch be still non est, he will probably be discharged from custody.

REPRIMANDED.—Wm. Johnson was arrested on Saturday night last, on complaint of A. Newell, who charged him with kicking in a panel of the door of his house. Yesterday morning, Newell declined to prosecute, and was severely reprimanded by Judge Pemberton, who stated that cases where the police were put to unnecessary trouble, and the complainants refused to prosecute, were becoming too frequent, and that future complaints must be supported by the parties making them.

WHERE IS IT?—Inquiry is made every day as to what has become of the petition for the maintenance of a lighthouse at the entrance to Victoria harbor, sent into the Assembly some six weeks since? The people are very anxious to learn whether or not they are to have a light in that locality, and are patiently waiting for a disposition of the document.

ACCIDENTAL DISCHARGE OF A WEAPON.—A man who happened into the identical liquor saloon on Saturday, took up a Sharp's rifle, and while examining the weapon, it suddenly exploded. The ball struck the side of the house, and rebounding hit the rim of the man's hat, falling down between his clothes and his back, and was afterwards found in the seat of his trowsers.

SELLING LIQUOR WITHOUT A LICENSE.—Mr. Martin, a grocer, on Humboldt street, was before the Police Magistrate yesterday, on a charge of selling liquor to Timothy Blyon without a license. As there was only one witness in the case (and as two are required), the charge was dismissed.

IMPROVING.—John Ennis, who cut his throat at Salt Spring Island, a short time ago; and Policeman Whelan, shot through the thigh during the fight with the Hydah chiefs at the city prison, are improving slowly. They are at the Royal Hospital.

HEARSE.—By the last steamer there arrived a hearse adorned with feathers and pall, for Mr. Richard Lewis. We don't want to injure the enterprise, at the same time we hope that occasions will not be very numerous for its use.

JONES SENT TO THE CHAIN-GANG.—Geo. Jones, arrested on Friday for selling liquor to Indians, was fined £10, and in default sent to the chain-gang for two months.

JANION & GREEN,

COLONIAL THEATRE.—On Saturday evening there was another jam at the Colonial Theatre. Mr. J. B. Robinson as Capt. Copp, in the "Merry Monarch," won general admiration, and represented the retired "sailor man" to perfection—especially in the scene between King Charles (Mr. Beatty) and himself, where the latter offers a gold watch as a pledge of the future payment of his reckoning. Miss Susan sang some of her prettiest songs in her loveliest style, and drew forth loud applause. "Slasher and Crash'er" closed the evening's entertainment, and Mr. J. B. Robinson as Stasher, with Mr. Beatty as Old Blowhard, gave universal satisfaction. Mr. Robinson's acting is very natural, and never fails in keeping the audience in good humor. Mr. Burton's Crasher was also well received.....Last evening, "The Two Bonny Castles," "The Clown Outwitted," and "The Swiss Cottage," drew another full house, and added to the reputation of the troupe, as accomplished artistes. Miss Susan, in the latter play, seemed peculiarly adapted to the character of Lizette; and the performance of the whole company was much applauded. To-morrow evening a fine bill will be offered. In order to secure seats, go early.

THE MASSACRE ON SALT SPRING ISLAND—The only survivor of a company of nine Bella-Bellas, eight of whom we mentioned, a few days ago, as having been massacred on Salt Spring Island, reached town yesterday. He is a chief of the Kitzah-mat tribe, and was shot in the arm, hand and face, but managed to crawl off into the bush and conceal himself until some friendly canoes passing, he was taken aboard, and properly cared for until their arrival here. He informs us that the occupant of one of the canoes had a letter from Major Downie to the editor of the COLONIST, and two others for residents of this place. The messenger was killed, and the papers taken possession of by the Cowichans.

ELECTION RETURNS.—We yesterday received a copy of the Extra Register of Port Townsend, containing the election returns of Jefferson County. The Democrats seem to have carried everything before them. Hubbs has been elected to the Council; Hastings as Representative; Briggs as Probate Judge; Chenoweth as Prosecuting Attorney; Tucker as Sheriff; Kaines as County Commissioner; and Laighton as County Treasurer. The majority for the establishment of a jail was 250—only six persons voting in the negative.

HOUSE OF ASSEMBLY.—This body met on Saturday last, but transacted no important business. Mr. Crease was sworn in as a member of the Election Committee, which meets to-day; and Mr. Waddington presented a report from the Committee on Fees. The House adjourned to Monday, at 3 o'clock, but no quorum being present, was adjourned until to-day at 3 o'clock. The members present yesterday, were the Speaker, Waddington, Gary, Gordon, Foster and Crease.

STOLEN FROM NEW WESTMINSTER.—A fellow named Antonio Loquovich, an Italian, and an honorary member of our chain-gang, stole a yawl-boat last week, from New Westminster, and made for the mouth of the Fraser. The boat is 18 feet keel, 5 1/2 feet beam, and painted black on the outside, and lead color inside.

CLEARING OUT.—N. Moore & Co., the well known Clothiers of Yates street, are closing out their present stock, in order to make room for an entirely new assortment of goods, preparatory to entering their new fire-proof building. They are offering their goods at a very low figure.

DISSOLUTION.—In consequence of the demise of M. J. Lassalle, the firm of St. Ours & Lassalle has been dissolved, and F. J. de St. Ours will continue the business at the old stand, on his own account.

REAL ESTATE AT AUCTION.—P. M. Backus, at 12 o'clock, noon, to-day, will sell by auction, a portion of suburban lot No. 3,—in all about three full lots. The sale is peremptory.

The Supreme Court met yesterday, but adjourned to this morning, without transacting any business.

WONDERFUL RECOVERY.—The Sacramento Union has, on several occasions during the last two years, called the attention of its readers to the case of Charles M'Kay, who was so dreadfully burned in Yolo county, nearly four years since. The sympathies of hundreds have been certainly excited, as they had personal knowledge and observation of his sufferings. The burn being upon his back, he has only been able to lie upon his face during these long and painful years. He has endured the torture of a score of deaths. Every effort to cure him seemed hopeless, and death has been expected and even prayed for, as the only possible relief. But, to the astonishment of all, he is now nearly healed, and may be daily seen walking or riding about the city, a perfect picture of gratitude and happiness.

A BILL

To Provide for the administration of Oaths in the House of Assembly, and the production of evidence before Committees of the same. Whereas, it is expedient for the efficient discharge of public business, to provide for the administration of oaths or affirmations to members of the House of Assembly, of Her Majesty's Colony of Vancouver Island, and to witnesses before Election Committees; and whereas doubts exist as to the power of the Clerk of the said House to administer such oaths and affidavits; and as to the Chairman of Election Committees of the said House to administer such oaths or affirmations as may be necessary for the efficient discharge of the duties of such Committees;

Therefore,—Be it enacted by the Governor in Her Majesty's behalf by and with the consent of the Legislative Council and Assembly;

I. That from and after the passage of this act, the Honorable the Speaker, the Clerk, and the Sergeant-at-Arms of the said House of Assembly shall have, and may exercise, the same powers in administering oaths or affirmations, and all other powers as are by law conferred upon, possessed, and exercised by similar officers of the House of Commons of the Imperial Parliament of the United Kingdom of Great Britain and Ireland.

II. That the Chairman and members of Election Committees shall have and may exercise, and they are hereby empowered to exercise the same powers, and to administer such or similar oaths or affirmations as are required and allowed by law to Chairmen and members appointed by the said House of Commons to inquire into controverted Elections.

III. That the Chairman of Select Committees of the said House of Assembly shall also have and may exercise as such Chairman, the same and as full powers as are given to Chairmen of Select Committees of said House of Commons.

IV. And, that the form of the oaths and affirmations, warrants, summonses, orders, and other forms necessary for the due execution of this Act, shall be similar in the like cases and have the same force and effect, as those used in the said House of Commons, or as nearly as circumstances will permit.

Read a third time, and passed the Council this 29th day of June, A. D., 1860.

(Signed) EDWARD CRIDGE,

Honorary Secretary to the Council.

Passed the House of Assembly, this 4th day of July, 1860.

J. BOWERS DOGETT,

Clerk of the House of Assembly.

Assented to this 9th day of July, A. D., one thousand eight hundred and sixty.

Dyspepsin. Fever and Ague. Indigestion, Sour Stomach, Heart Burn, Water Rash, Bilious, Liver Complaints, Acidity, Flatulence, Jaundice, Change of Climate, Sick Headache, Loss of Appetite, Female Complaints, Oppression after Eating, and General Debility are rapidly, effectually and surely cured by the **OXYGENATED BITTERS.**

CALIFORNIA EVIDENCE.
Mokelumne Hill, Cal., June 16th, 1858.
Having suffered for fifteen years with Dyspepsin, in its worst form, and having consulted with the best physicians, and tried everything recommended without relief, I was induced to try the Oxygenated Bitters, and before I had taken one bottle I found myself much better, and continued taking them until I was entirely cured, and now enjoy as good health as I ever did in my life. Take pleasure in recommending them to all who are similarly afflicted.

JAS. LANGSHORE.
The "Oxygenated Bitters" are sold in California by Henry Johnson & Co., Reddington & Co., and Chas. Morris, San Francisco; R. H. McDonald & Co., and Chas. Morris & Co., Sacramento; Rice & Coffin, Marysville; Smith & Davis, Portland, Oregon.

Wistar's Balsam of Wild Cherry.—The only pure and genuine Balsam is, and for the last twenty years has been, prepared by SETH W. FOWLE & Co., of Boston; and their printed name, as well as the written signature of I. BUTTS, appear on the outer wrappers. As you would avoid the spurious and have the genuine, take no other!

WISTAR'S BALSAM OF WILD CHERRY.—This invaluable remedy is the best one extant for the safe, sure, speedy and permanent cure of Coughs, colds, Sore Throats, Bronchitis, Asthma, Pleurisy, Pneumonia, Croup, Whooping Cough, Bleeding at the Lungs, pain in the breast or side, and in fact every form of Throat, Chest and Lung Complaint, as well as Consumption itself.

This household remedy should be in the hands of every family and individual, as a timely application of it to a slight cold will cause immediate relief; while cases of long standing, obstinate, and apparently incurable character, will surely yield to its wonderful curative powers and its great adaptation to the wants of man when afflicted.

For sale in California by Reddington & Co., Henry Johnson & Co., Charles Morris, San Francisco; R. H. McDonald & Co., Sacramento; Rice, Coffin & Co., Marysville; Smith & Davis, Portland, Oregon.

DR. ADOLPHUS'

ANTI-RHEUMATIC CORDIAL

— AND —

Health Restorative

IS THE MOST VALUABLE AND UN-

surpassed remedy for Rheumatism and Gout to

be found in the world, or known at present. The

discoverer of the above medicine does claim its infi-

lity in all cases of Rheumatism and Gout—do—

used according to direction—and does offer a reward

of five thousand dollars to any medicine that does

supposedly fit it entirely vegetal.

The Doctor is enabled, after the above reward on account of his

having used the above medicine for ten years in his

practice, and has never known it to fail in the cure of

the most protracted cases of Rheumatism and Gout,

and withheld all known remedies to the profession.

Doctor Adolphus is known and highly recommended

throughout the State, for his cures in Rheumatism,

Gout and Chronic Diseases, and has only to the

continued urgent efforts of his patients, and through the

desire to help them who are not enabled to see him

personally, or to spend a fortune to get rid of the

disease, which they have contracted in the pursuit of

their daily calling; only this has been able to per-

suade the Doctor to give the above medicine to per-

sons who are not able to pay for it, and to give them

such a small sum as to make it a trifling expense.

Take this medicine when your digestive organs are

disordered and your blood is impure, it will surely

act on your bowels.

Take this medicine when you have a cold, and it

will make you perspire freely.

Take this medicine when your urinary and absor-

ing organs are disordered, and it will act on your

kidneys—it penetrates every part of your body,

searches even the most remote and secret recesses of

your system, and removes the disease located there;

it restores healthy action and gives life to every

organ in the human body—therefore it has righteous-

name deserved the name it bears: HEALTH RESTO-

RATIVE.

The Doctor, who is averse to nil patent medicines,

wishes it to be understood that the above medicine is

no such thing; but that he has, through the introduc-

tion of this medicine with its treaties and directions

for use, made every sufferer to his own physician

in the above named diseases.

Thinking it under my dignity to follow the mode

of quacks, by appending certificates of physicians or

private persons, which is too well known can be had

for certain remunerations, applications of friends, or

by the mode of boring a man half to death for even

the most worthless trash, I will therefore leave it

to those in want of medicine to inquire personally of

men who have been cured by my medicines of

above diseases, and who can be found in almost every

city and village throughout the State. I consider

such a person's conviction far superior
